## FAMILY ENGAGEMENT COMPONENTS FRAMEWORK

Facilitating Family-to-Family Support	Establishing a Network of Community Resources	Increasing Family Participation in Decision-Making	Equipping Families With Tools to Enhance & Extend Learning	Staff Professional Development	Evaluating Family Engagement Efforts and Using Evaluations for Continuous Improvement
Beginning with transitions to parenthood, parents families and schools develop warm relationships that nurture their child's learning and development through meaningful activities.	Parents and families form connections with peers and mentors in formal or informal social networks that are supportive and/or educational and that enhance social well-being and community life through community engagement and resources.	Parents and families participate in leadership development, decision making, program policy development, and/or in community and state organizing activities to improve children's development and learning experiences.	Parents and families advance their interests through education, training and other experiences that support their parenting, careers, and life goals.	Developing staff skills in evidence based practices that support families in meeting their children's learning benchmarks.	Parents and families support and advocate for their child's learning and development through shared vision and goals as they evaluate effectiveness of program through surveys and other assessment tools.
